

EDUDIGM, AN IIT KHARAGPUR ALUMNI INITIATIVE

Why: In a fast-changing world it is important to inculcate the right skills and a love for learning to create the innovators, creators, and problem solvers of tomorrow. These 21st-century skills include communication, critical thinking, creativity, collaboration, and compassion; fuelled by curiosity and a passion for knowledge.

About us: Since 2009, Edudigm, an IIT Kharagpur alumni initiative, has been at the forefront of innovations in education that empower learners to:

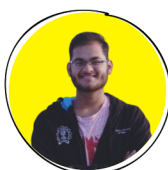

- Explore different career paths and pursue them based on their strengths
- Enjoy the process of learning and develop a deep understanding of the concepts
- Enhance their skills and proficiencies in various subjects and their applications
- Excel in all formats of examinations & competitions, at the national/international level

Impact: We have had the privilege to serve 25,000+ students including providing free education to 4,000+ students from less privileged background. Many of them have realised their dreams of studying/working in the top colleges/ companies of India and the world.
