Date:- 20.03.2024

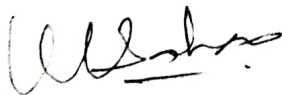

STRUCTURAL STABILITY CERTIFICATE

The School Building at BA-193, Salt Lake, Sector-I is a five storied building with R.C.C frame structure having slab beam column system. The year of construction is 1992. Hence, the age of the building is about 33 years. During its life span it's maintained properly by the School Authority.

I have inspected the building thoroughly floor by floor and no distress has been found in the structural system anywhere. The structural system provided in the building is found adequate to transfer the entire vertical and horizontal load including wind and earthquake. No noticeable vertical and horizontal deformation has been found anywhere.

Therefore it's hereby concluded that the Structural Health of the Building is sound from safety and stability point of view and the Building is absolutely fit for use for the purpose it has been constructed.

This certificate is valid till 19.03.2029.
